The player controls a red ball that bounces through 11 levels. It must avoid obstacles and collect all the rings to get to the next level. Collecting crystals earns extra points, while crystal balls give an extra life. Jumping on rubber floors gives extra bounce. Features: - Beautiful HD graphics - Most popular original levels. - Intuitive controls - Play where and every time here you can find the Bounce Classic Game changelog since it was posted on our website on 2016-12-26. The latest version is 1.3 and has been updated soft112.com 2019-10-12. See below the changes in each version: - change the rules of the game - fix some minor bugs. Original bounce: Control a red ball that jumps through different levels. Overcome obstacles, collect rings and do not enter traps. This game is an Android version of the java game that was popular at the beginning of this century. Your task is simple: guide the bouncing red ball from the beginning to the end of the level, collecting all the rings. Be careful and do not fall into bottomless wells, blow up the ball or come across sharp tips. Practice, because the difficulty of playing increases at each new level.
